Ruby aplicado

Workshop Desarrollo Ágil con Ruby Agenda de la charla

- TDD
- BDD
- Web application demo

TDD: Test Driven Development

TDD: Test Driven Development

- QA: Quality Assurance. Automatizado
- Testing.
- FIRST: Fast, Independent, Repeatable, Self-checking, Timely
- RSpec: DSL embebido en Ruby para escribir tests.
- Convention over configuration para determinar el specfile.

BDD: Behavior Driven Design

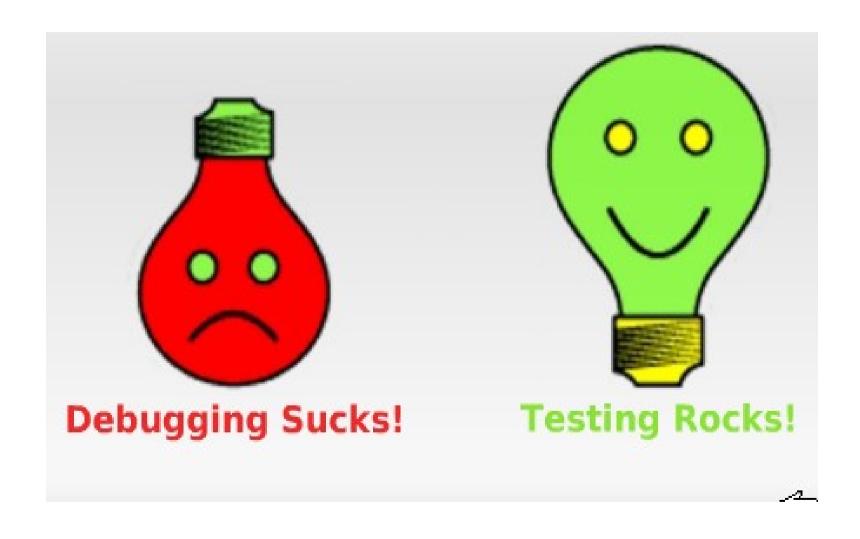

- User Stories. 3x5 cards.
- Validación de requerimientos con los stakeholders.
- Sketches Storyboards
- Objetivo: Definir el comportamiento del sistema.
- Muy relacionado con **TDD**.
- **SMART** user stories: Specific, Measurable, Achievable, Relevant, Timeboxed.

BDD: Modelo de user story

Feature name
As a [kind of stakeholder],
So that [I can achieve some goal],
I want to [do some task]

```
Feature: View all users
Scenario: list all users
  Given I visit the home page
  And the following users exist:
   username
    scott |
    chris |
    casey
  When I click on view users
  Then I should see a page with the following users:
   scott
    chris
   casey
```
